

Service Provider Program

Help your subscribers manage their family's home network and devices with Bark's monitoring and screen time solutions. Increase revenue while also helping to protect kids online. Our ISP program is perfect for **internet service providers (ISPs)**, **managed service providers (MSPs)**, and **alarm/security companies**.

Build Bark into your service offerings using a site license that gives your customers full access to Bark Jr with the option to upgrade to Bark, our full suite of digital safety tools.

Why Join Bark's ISP Program?

- Increased profit margins
- Flexible support options
- Continuity for subscribers with a single service bill
- Flexible API for syncing your existing CRM and OSS billing systems

How Bark Supports Your Team

- Service provider portal for supporting your user accounts (no personally identifiable information is accessible)
- Pre-made marketing collateral
- Sales and support staff training
- Priority support from our customer success team to help troubleshoot
- Free access to Bark software for training
- Discounted Bark hardware for resell
