

Our Chrome Web Filter

The Bark for Schools Chrome web filter is a custom Chrome extension for schools that use G Suite to manage their student accounts. It enables schools to block games, pornography, streaming services, and other web categories and domains that may undermine a positive learning environment.

Complete Control

Whitelist or blacklist any website, or block groups of domains by category.

In-Depth Reporting

Get custom reports on browsing at the school, classroom, and student levels.

Customizable Deployment

Customize web filtering policies to apply across Organizational Units.

Our Chrome web filter is an excellent solution for:

- Chromebooks
- Distance learning
- 1:1 schools
